

# **Data Dictionary for Quarterly Dialysis Facility Compare**

**Release Date: October 2017**

This document provides the variable name, variable type, maximum length and a description for each column included in the downloadable databases available on the Dialysis Facility Compare (DFC) website. The measures are obtained using the methodology described in the *Guide to the Dialysis Facility Compare Report* available for download from the Methodology tab of the Dialysis Data website (<https://dialysisdata.org/sites/default/files/content/Methodology/DFCReportGuide.pdf>). For each quality measure (Tables 2-11), a variable indicating the time period, patient count and data availability code (Table 12) are provided. Updates to the data dictionary are listed on page 2.
