Medicare

Medicare Coverage & Heart Disease

Ask your doctor about your risk for heart disease. Medicare covers many services that can help lower your risk.

Medicare covers these items and services to help prevent, diagnose, treat, or manage heart disease:

- Preventive visits:
 - “Welcome to Medicare” preventive visit (within the first 12 months you have Part B)
 - Yearly “Wellness” visit
- Cardiovascular screenings, behavioral therapy, and rehabilitation programs
- Clinical laboratory services (lab tests)
- Help with diabetes:
 - Diabetes screening
 - Medicare’s Diabetes Prevention Program
 - Diabetes self-management training
 - Medical Nutrition Therapy
- Help to stop smoking
- Prescription drugs if you have Medicare drug coverage (Part D)

Note: You may have to meet certain criteria to be covered. Coinsurance and/or deductibles may apply.

For more information

- Log into (or create) your secure Medicare account at [Medicare.gov](https://www.Medicare.gov) to access preventive health information. You can view your preventive services under “My preventive services,” get a list of the Medicare-covered tests and screenings you’re eligible for, and print a personalized report under “Download my data” to take to your next doctor’s appointment.
- Contact your provider to schedule an appointment. If you need a provider, you can find and compare different Medicare providers in your area by visiting [Medicare.gov/care-compare](https://www.Medicare.gov/care-compare).
- Visit [Medicare.gov/coverage](https://www.Medicare.gov/coverage) for more details about the items and services Medicare covers.
- Call 1-800-MEDICARE (1-800-633-4227). TTY users can call 1-877-486-2048.
